

KRISHIMITRA Crop Management Plan

AI-Powered Agricultural Solutions

Farmer Profile Summary

Location: lucknow
Soil Type: clay
Farm Size: 15.0 acres
Preferred Crop: rice
Previous Crop: wheat
Budget: INR mid

Crop Recommendation

- Crop: Indica Rice
- Variety: Sarjoo 52
- Suitability: Suitable for clay soil and Lucknow climate

Soil Preparation Guidelines

- Tillage: Deep ploughing and harrowing to break clods
- Organic Matter: Add 15 tonnes/ha of farmyard manure to improve soil structure
- Soil Test: Conduct soil test to determine nutrient deficiencies

Sowing Plan

- Sowing Time: June 20th to July 5th
- Seed Rate: 45 kg/ha
- Sowing Method: Transplanting

Fertilizer Schedule

- Nitrogen: 150 kg/ha (80 kg/ha at basal + 40 kg/ha at tillering + 30 kg/ha at panicle formation)
- Phosphorus: 80 kg/ha (50 kg/ha at basal + 30 kg/ha at tillering)
- Potassium: 60 kg/ha (30 kg/ha at basal + 30 kg/ha at tillering)
- Micronutrients: Zinc sulphate 30 kg/ha at basal

KRISHIMITRA Crop Management Plan

AI-Powered Agricultural Solutions

Pest Management Strategy

- Pests: Brown plant hopper, White backed plant hopper, Leaf folder
- Chemical Control: Imidacloprid 17.8 SL @ 250 ml/ha, Cartap hydrochloride 50 SP @ 1200 g/ha
- Organic Control: Neem oil 750 ml/ha, Trichoderma viride 2.5 kg/ha

Disease Control Measures

- Diseases: Blast, Sheath blight, Bacterial leaf blight
- Chemical Control: Mancozeb 75 WP @ 1200 g/ha, Copper oxychloride 50 WP @ 1200 g/ha
- Organic Control: Trichoderma viride 2.5 kg/ha, Pseudomonas fluorescens 2.5 kg/ha

Irrigation Plan

- Water Requirement: 1400 mm
- Irrigation Schedule: Flood irrigation at 4-5 days interval during vegetative stage and 10-14 days interval during reproductive stage

Harvest Planning

- Harvest Time: October 20th to November 5th
- Harvest Method: Manual harvesting

Market Analysis

- Market Price: INR 2800-3200 per quintal
- Best Selling Period: November to January

Risk Assessment

- Weather Risk: High risk of waterlogging and flooding during monsoon months
- Pest Risk: High risk of brown plant hopper and white backed plant hopper infestation

KRISHIMITRA Crop Management Plan

AI-Powered Agricultural Solutions

- Market Risk: Moderate risk of price fluctuation
